

# LAMB ELECTRIC

Model: 117157-00

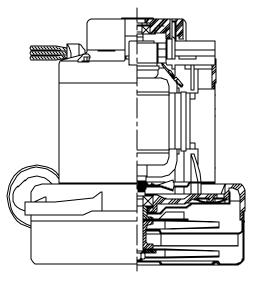

117157-13\*

# **DESCRIPTION**

- Two stage
- 240 volts
- 7.2"/183mm diameter
- Single speed
- Double ball bearings
- Tangential bypass discharge
- Thermoset fan end bracket
- Thermoset commutator bracket

# **DESIGN APPLICATION**

- Equipment operating in environments which require separation of working air from motor ventilating air.
- Designed to handle clean, dry, filtered air only.

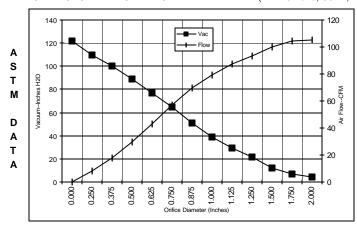

# **SPECIAL FEATURES**

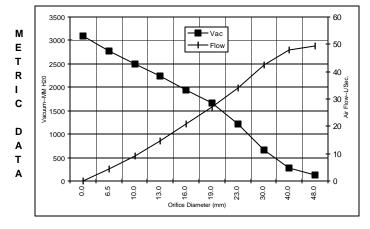

- Suitable for 240 volt AC operation, 50/60 Hz
- UL recognized, category PRGY2 (E47185)
- Provision for grounding
- 10 mm shaft and bearing system
- The Lamb Electric vacuum motor line offers a wide range of performance levels to meet design needs
- \*Model 117157-13 features patented air seal bearing construction, U.S. Patent #4,088,424 and epoxy painted fan case

# TYPICAL MOTOR PERFORMANCE.\*

(At 240 volts, 60Hz, test data is corrected to standard conditions of 29.92 Hg, 68° F.)

Note: Metric performance data is calculated from the ASTM data above.

\* Data represents performance of a typical motor sampled from a large production quantity. Individual motor data may vary due to normal manufacturing varial

PRODUCT BULLETIN 117157-00

IMPORTANT NOTE:

Pictorial and dimensional data are subject to change without notice. Contact factory for current revision levels.

**WARNING** - When using AMETEK Lamb Electric bypass motors in machines that come in contact with foam, liquid (including water), or other foreign substances, the machine must be designed and constructed to prevent those substances from reaching the fan system, motor housing, and electrical components. Lamb Electric vacuum motors other than hazardous duty models should not be applied in machines that come in contact with dry chemicals or other volatile materials. Failure to observe these precautions could cause flashing (depending on volatility) or electrical shock which could result in property damage and severe bodily injury, including death in extreme cases. All applications incorporating Lamb Electric motors should be submitted to appropriate organizations or agencies for testing specifically related to the safety of your equipment.
